

Behind the Screens: Securing Data in the Background Screening Industry

October 27th, 2025 | [Rebecca E. Kuehn](#) and [Megan Nicholls](#)

3:45 PM – 4:30 PM

Legal/Compliance

In today's hyper-regulated and high-risk environment, background screening companies are custodians of highly sensitive personal data—from criminal histories to credit reports. With cybersecurity threats on the rise and data privacy laws tightening, companies face mounting pressure to secure their systems, protect consumer information, and maintain trust with both clients and regulators.

This session will explore the unique data security challenges that background screeners face and offer practical strategies to mitigate risk, ensure compliance, and prepare for the inevitable scrutiny that comes with handling sensitive data.
