

## Financial Regulation, Risk. and Compliance in the Age of AI – Panelist

August 20th, 2025 | and [Erica A.N. Kramer](#)

AI is transforming the financial landscape—reshaping how risk is managed, compliance is achieved, and regulation is defined. This session explores the dual role of AI as both a regulatory challenge and a powerful ally, revealing how financial institutions and regulators are navigating this shift to build a more intelligent, resilient, and transparent financial system.
